

When is Temperature Assessment Useful?
Science and School Nurse Experiences during the Pandemic
Live Webinar
May 13, 2021

Margaret Bultas, PhD, RN, CNE, CPNP-PC

Dr. Bultas is an Associate Professor of Nursing at Saint Louis University Trudy Busch Valentine School of Nursing where she teaches across the prelicensure programs. The classes she teaches includes pathophysiology, lifespan growth and development, pediatric nursing, health assessment, and nutrition. Her clinical expertise is as a pediatric nurse and she is also certified as a Pediatric Nurse Practitioner in Primary Care. Dr. Bultas has experience in School Health, pediatric telephone triage, and also worked in the Pediatric Intensive Care Unit. Her clinical research focuses on improving the health care experiences of children with developmental disabilities and their families. She also focuses on providing support to parents of children with chronic illness, complex medical conditions, and challenging behaviors.
