

NEUSHA Virtual Summer Academy 2021 2021 Summer Academy Grid. It Only Took a Pandemic...

All times are Eastern Time

Learning Outcomes

As a result of this 2 day conference, participants will:

- Identify how striving for perfectionism can hold nurses back from self-compassion, empathy for others, and improvements in our practice
- Describe the benefits of writing for school nurses to share their messages out to colleagues, school communities and the public
- Describe how the COVID-19 pandemic changed the role of direct service school nurses and school nurse administrators
- Describe school nurses' roles identified in the Future of Nursing 2020-2030 Report
- Identify & respond to developmental emotional health challenges of students
- Describe common skin problems in youth and how they're treated
- Identify current, essential concepts about COVID-19 transmission and prevention
- Identify resources to support students at risk of/from vaping
- Describe mentoring essentials: the purpose and value, process and resources, and evaluation and outcomes
- Identify resources and strategies to support school nurses getting their messages out
- Identify at least one potential health outcome related to mindfulness practices
- Describe how mindfulness practices might be incorporated throughout the day to promote healthy outcomes
