What is a School Nurse Dashboard?

- A School Nurse Dashboard is an online database that holds all pertinent documents and information that a Nursing Team needs to accomplish their everyday tasks.
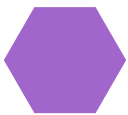

Benefits of a School Nurse Dashboard

- Streamline communication
- Easy to use
- Organization
- Time-saving

What our colleagues are saying

"The dashboard consolidates relevant information, provides a quick and accessible overview, and enables users to make informed decisions efficiently. This streamlined access allows us more time to provide high-quality clinical care to our students and staff."

"I love the Dashboard because it is a virtual Rolodex/file cabinet of important information I use on a daily basis and reference materials. Easy access and time saver."

"Being new to school nursing, the dashboard helps provide me with all the resources I need. It is very well organized that I can easily find what I need to answer my questions."
